To continue with the system of improvements, a section of the main drainage line was desilted through the Julio Berdegué Aznar Street in the section of Villas Puerto España and house No. 456.

IMPROVEMENTS TO THE SEWER SYSTEM AND WATER TREATMENT PLANT.

We already have the materials to carry out the improvements to the sewer system, compacting and filling material is kept in front of home 120 (by the Marina Caimán), as well as 40cm PVC pipes for the main sewer line.

Improvements on Doña Sol Street. We are set out to continue works in this area and to work on the concrete pavers as soon as the works of the pavers at La Isla section are finished, where we are currently working. This month of March we will be working to replace a stretch of a sewer pipe (18 m) also, the water intake points, and to improve this road as well.

Waste disposal sites built with brick, concrete floor at Tennis Villas, Puerto España, Villas Las Palmas, Marbella Condominiums (2 of them).

Paint works: The exterior walls at Marina Caimán and Main Gate were painted.

The maintenance staff meeting took place on the first Saturday of the month. (March 5th)
